## KazNU is my university

My university is KazNU. My university is my pride, because Al-Farabi University is one of the higher educational institutions that is popular throughout the world. The noble town in the whole city, which is unusual in terms of quality education, skill in preparing qualified specialists, and educational campuses, has an 90 year history. Therefore, KazNU graduates are leading specialists in various fields of science.

KazNU is a dream university, here I first learned what student life is and got acquainted with my future profession. Having chosen this university, I am glad to study with the luminaries of science,

The university itself cannot be described in words, it has a very rich infrastructure. We can safely say that KazNU is a small town, since we have everything from canteens to a gym. Personally, I really love our library, where everything is so cozy and conveniently furnished, its doors are always open to everyone. Now I am in the 1st year of the Faculty of Mechanics and Mathematics. After all, Kazna is a place where talented students unite. I can proudly say that my university is a place of respect and true friendship.

In conclusion, I once again realized that I was not mistaken in choosing a university. I am very proud to study at KazNU, and I would advise every young graduate to enter this university.
