

KazNU is my university

KazNU is one of the best universities in Kazakhstan with excellent infrastructure and a large number of highly qualified professors and teachers who effectively teach and educate many students who work, study and live in a dynamic and exciting atmosphere.

The university has a huge educational, scientific, spiritual-educational, innovative and production potential, which is aimed at training highly qualified specialists, further integration into the global educational space, the development of fundamental and applied research, their implementation in production. The university has 16 faculties, 32 research institutes and centers, a technology park and a military department. The university employs more than 2 thousand professors, doctors, candidates of sciences and doctors of philosophy, more than 100 academicians of the largest academies, more than 40 distinguished figures of the Republic of Kazakhstan, about 40 laureates of the State and personal prizes of the Republic of Kazakhstan and 40 laureates of prizes for young scientists. More than 25 thousand students and undergraduates study at the al-Farabi Kazakh National University on a multi-level system of higher professional education. My university collaborates with 418 major international universities in the world on implementing joint international study programs, student exchange and internships.

The university I got into is very famous for its CS ranking. I am currently studying at the Faculty of Mechanics and Mathematics of this university. Al-Farabi Kazakh National University is one of the best public universities in Almaty, Kazakhstan. It is ranked 150th in the QS World University Rankings 2023. Our university is located in a beautiful location in the city center. It has a very large campus, which consists of faculty buildings, an administration building, students' houses, a technical center, a Keremet student service center and a special library named after Al-Farabi with a large number of books.

Students from different countries study at our university. They are very friendly. We will study for four years.

I love my university!

Әл-Фараби атындағы ҚазҰУ Механика-математика факультеті

Актуарлық математика мамандығының 1 курс студенті:

Жанаділ Әсел Мұратқызы

Жетекші: Филология факультеті шет тілдер кафедрасының аға оқытушысы Жұбанова Күләш Хорезмовна
